**RE: Medical Treatment for**  
**Demeshov, Nikita \* 06.05.2009**

Dear family Demeshov,

Your child Nikita is suffering from a congenital heart defect which should urgently be treated. Our physicians saw that he should undergo a surgical procedure such as a complex and complicated operation at the German Heart Institute Berlin.

Should you not wish to be treated by the chief surgeon the estimated costs for this procedure will be:

- complex and complicated surgery utilizing the heart-lung machine 28.980,00 €

This sum includes a maximum of 27 days (each complex and complicated surgery utilizing the heart-lung machine) of hospitalization. Every further day will be billed in addition with 1.200,00 € for treatment under supervision of the chief physician.

Each sum includes hospitalization fees, materials, medication, intensive care, physiotherapy, echocardiography, x-ray, ecg, and laboratory examinations. Standard room accommodation is provided.

Please note, that the indicated prices are lump-sums, and that in the case of non-utilization of the mentioned maximum hospitalization period, this will not lead to a reduction of the package price.
